RE: Keva Basketball Referees

Tim -

I just wanted to thank you and your officiating crew for a great season. This was my first league at Keva and I have to say that the referees there are by far the best I've ever experienced in any league - particularly the tandem last night for the game between The Great Dane and The Dream Team.

Before moving to Madison I played in city leagues in Appleton and Oshkosh, and to be honest poor officiating took a lot of the joy out of playing. However, at Keva the officials have been great; they're professional, consistent, and friendly. My teammates and I have said several times that the league fee is worth it just for the officiating. Also, one of the biggest compliments to any officiating crew is when, as a player or fan, you barely notice them during the game. Well, there were several times this year when I felt that way. The refs let us play and called a fair and consistent game.

You guys do a great job and I just wanted to thank you. Keep it up!
